Sub: Software to obtain content for the DAV United Magazine

Dear Colleague

We are pleased to share that within a year *DAV United* magazine is being circulated all over India. One of the main objectives of the magazine is to showcase the growth of DAV institutions spread all across the nation. Catering to this objective, the magazine features information about various events, activities, awards and other relevant topics from all the DAV Campuses spread nationwide.

The huge volume of data as received makes it evident that DAV institutions are enthusiastic about getting featured in the magazine at one end, whereas at the other end it is little difficult to manage the flow of information at our end. So in order to make it smooth and organized, we have arranged to design a software application for obtaining the desired information.

The software is titled as 'Story Builder' and can be accessed using a link www.davunitedpublications.com. It is a very easy to use application and makes the uploading of events, news, pictures, text, etc., convenient and faster.

You are requested to arrange to make the use of this software by deputing a representative of the school who can understand the process for the same. The necessary guidelines and information for its usage can be obtained by contacting at email id shikshaamc@gmail.com or at 9971965804.

This is for your information and further necessary action please.

With regards

Yours sincerely

(Nisha Peshin)
